digicert®

Dear ,

On behalf of DigiCert, I am pleased to submit the enclosed proposal. As a global leader in information protection, DigiCert can offer the industry's leading Public Key Infrastructure (PKI) solutions. Our innovative products and services secure any environment from the smallest sensor to the enterprise datacenter, to cloud-based systems. Our industry-leading expertise in protecting data, identities and interactions can provide you with confidence in a connected world.

I am confident this proposal presents a highly competitive and compelling solution that addresses your most pressing business and operational needs. DigiCert is committed to:

- Working in partnership with you to provide a comprehensive and sustainable solution for all aspects of your requirement
- Ensuring a successful project and minimizing risk
- Providing support and advice after deployment to ensure smooth operation and continued protection

DigiCert understands the challenges your organization is facing. In fact, an essential component of our success over the last 25+ years has been our ability to understand our customers' requirements and recommend the right solution to resolve them. With our breadth of offerings and track record of success, DigiCert is well positioned to provide a solution that can not only meet but exceed your expectations.

If you have any questions after reviewing this proposal, please contact me. Please also let me know if there is anything more that DigiCert can do to support you during the decision process.

I look forward to partnering with you and contributing to the success of your security requirements.

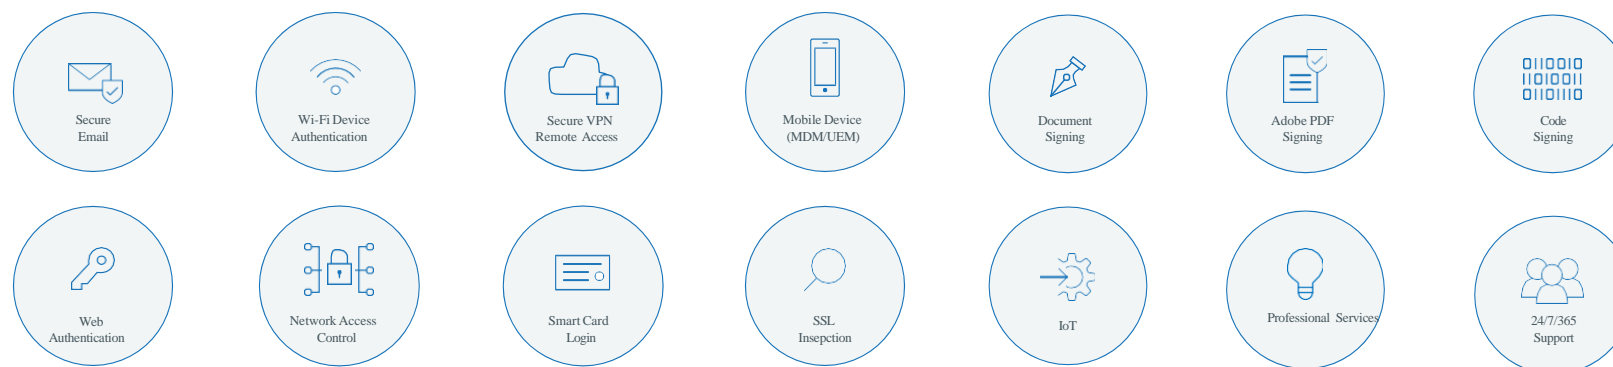

Sincerely,
Solange Ndaya

About DigiCert

DigiCert is the world's leading provider of scalable PKI, IoT and TLS/SSL digital signing, strong authentication and secure data encryption and communications. The most innovative companies, including 89% of the Fortune 500 and 97 of the 100 top global banks, choose DigiCert for its expertise in identity and encryption for web servers and Internet of Things devices.

DigiCert secures thousands of organizations across the globe, spanning various industries such as technology, industrial, finance, telecommunications, utilities, manufacturing, government and healthcare. We invest more in customer service and support, infrastructure, and enterprise-grade solutions for PKI, IoT and TLS/SSL than anyone else in our industry.

Secured and Centrally Managed PKI

Securing the World's Top Brands

#1

The preferred PKI provider for enterprises

INDUSTRY THOUGHT LEADER

Frost & Sullivan Global TLS Company of the Year Award
2020

AWARD-WINNING CUSTOMER SERVICE

5-STAR RATING

More 5-star ratings than all of our competitors combined

Introducing CertCentral Enterprise

(PROPRIETARY AND CONFIDENTIAL INFORMATION)

DigiCert is a leading provider of Internet trust, authentication and security solutions. CertCentral Enterprise is a comprehensive solution for all your website security needs, with features ranging from Extended Validation TLS/SSL certificates to automation.

CertCentral Enterprise delivers comprehensive protection for websites, data and applications. We help ensure uninterrupted performance, with automation tools and discovery of non-compliant certificates and website vulnerabilities. Take control 24/7, with customizable dashboards. All backed by the most recognized trust mark on the web.

Single-Point Control and Full Visibility

Managing TLS/SSL certificates across the enterprise has become complex. DigiCert CertCentral Enterprise provides a MPKI console, a powerful platform to discover, manage, and automate the renewal and installation of TLS/SSL certificates. The cloud-based platform enables IT administrators to automate critical tasks, reducing costs and risks in managing TLS/SSL certificates.

[CertCentral Enterprise includes:](#)

[Discovery Tools](#)

Allows you to discover all TLS/SSL Certificates in your environment regardless of CA.

[Automation Tools](#)

Allows you to automate the installation and renewal of DigiCert certificates to save time and reduce the risk of human error.

[Extended Validation](#)

Extended validation—or EV—triggers the green address bar to verify your site identity and security at a glance.

[Private CA](#)

Enables the consolidation of public and private certificates in one console, as well as minimize the hidden administration costs of self-signed CAs.

[Elliptic Curve Cryptography](#)

ECC 256-bit is 64,000 times more secure than RSA 2048-bit but requires less server resources.

[DigiCert Smart Seal or Norton Seal](#)

Two of the most recognized trust marks on the internet help assure customers that your website is safe, and transactions will be secure.

Customized Quote for DigiCert Subscription Services

(PROPRIETARY AND CONFIDENTIAL INFORMATION)

Thank you for considering DigiCert. Here's your quote.

With our subscription service, you can leverage a simplified purchase model to meet your business needs. We work with you to determine your current and projected usage volume and customize a subscription that works for you.

SERVICE LENGTH: 1.0 year

PRODUCT/PRICE DETAILS

Currency –USD

Payment Terms: Net 30 Days

Total Quote Amount: 58,800.00

CERTIFICATE SUBSCRIPTION SERVICES & SUPPORT

ANNUAL COMMITMENT FOR CERTIFICATE SUBSCRIPTION SERVICES
